

nutri-san EQUINE

SEAWEED ANIMAL FEED SUPPLEMENT

Regardless of your horse's activity level or breed, our premium seaweed blend supplements help support a healthy gastrointestinal tract and maximise performance.

Suitable for horses, ponies and foals, **Nutri-San Equine** is a 100% natural source of the minerals, vitamins, prebiotics, antioxidants and trace elements that your animal requires in order to thrive.

Rich in bioactive compounds, this gentle prebiotic promotes gut health and better nutrient absorption, while delivering a wide range of soluble fibre. As well as supporting maximum performance and well-being, the carefully selected seaweeds in Nutri-San Equine improve and enhance coat condition and sheen.

With low iodine, our sustainably sourced pelleted formulation is in tune with the unique equine digestive system and delivers exceptional results when included as part of a general nutritional management programme.

PROVEN BENEFITS

- Highly palatable prebiotic
- Source of natural vitamins and minerals
- Significantly enhances coat condition and shine
