

nutri-san PET

SEAWEED ANIMAL FEED SUPPLEMENT

Suitable for cats and dogs at all life stages, **Nutri-San Pet** delivers significant improvements in the health and well-being of companion animals due to the high levels of prebiotics, bioactives and minerals found in our 100% natural seaweed supplements.

The unique blend of sustainably sourced seaweeds has been selected to balance the microbiome, promoting luxurious healthy coats and the development of strong bones.

As well as being nutrient-rich, our supplements are high in the polysaccharides, minerals, trace elements and other bioactive compounds needed to promote large intestine health while enabling the immune and fertility systems to flourish.

With visible improvements in overall health and vitality, a diet incorporating Nutri-San's seaweed supplements gives owners and breeders an outstanding environmentally friendly addition to their animal's feeding regime.
